**BioJector**

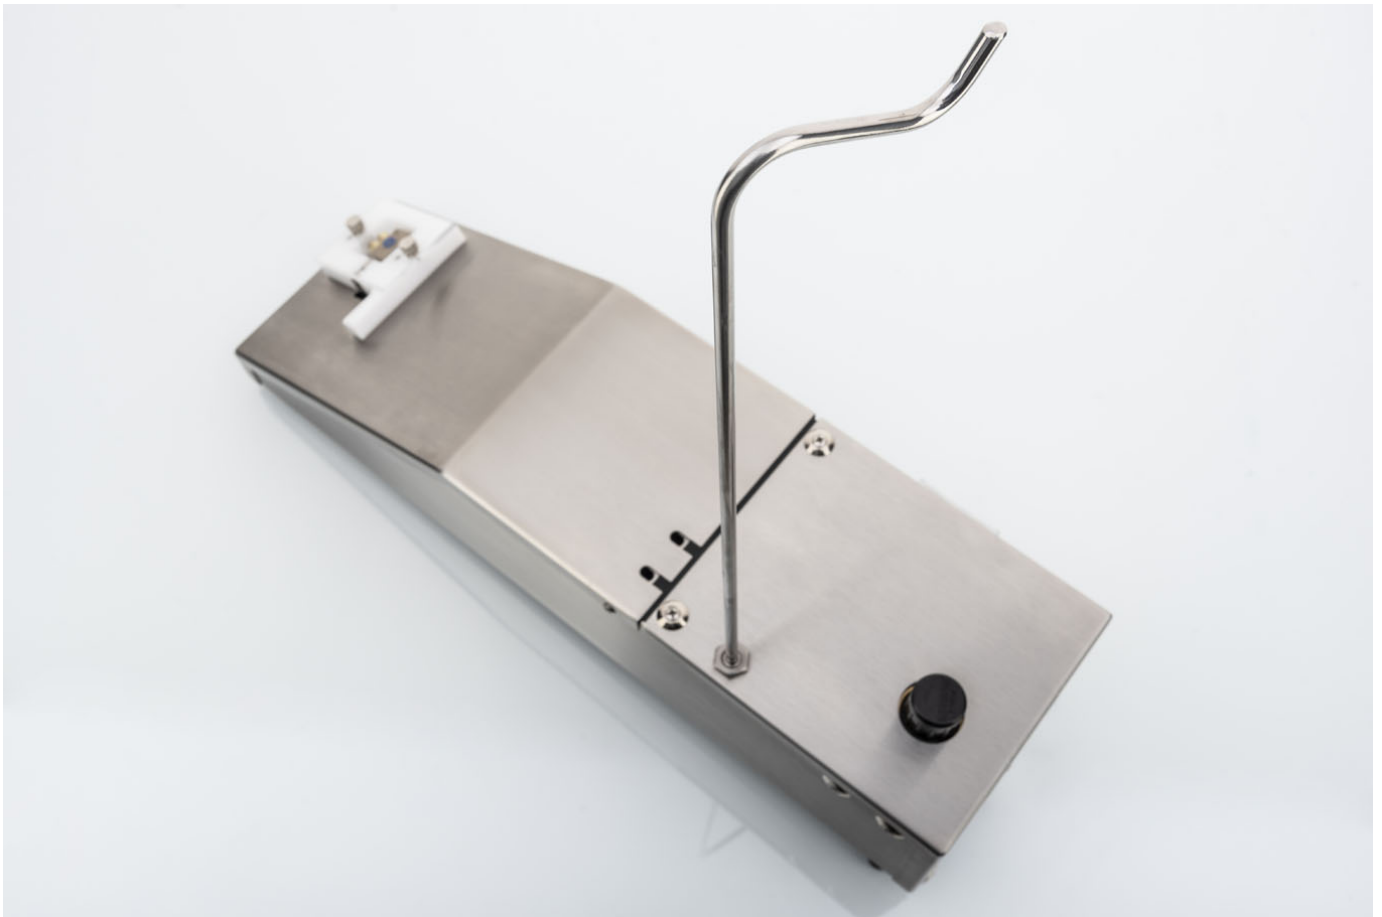

## **BioJector**

Highest quality, the pursuit of perfection and the dedicated work for each individual BioJector makes this unique vaccination device unique. "Made in Germany" is not only a slogan but a promise that only the highest quality materials have been installed in BioJector. All Cobb grandparent stock in Europe is vaccinated with the BioJector.

BioJector can be integrated into the automation processes, such as the vaccination carousel. In addition, you can customize the BioJector with your own logo.
