Layer Cage Sprayer

Technical Parameter

- Max. pressure 4.5bar
- Atomization pressure range: 2~4bar
- Atomization droplet size diameter: 50~150 μ m
- Battery capacity: 12V/ 45AH
- Tank capacity: 100 L
- Fast and easy operation
- Battery operated: ~5 hours operational time
- Battery power indicator
- Can adapt for all cage system (>6 tiers)
- Individual supply to all nozzle
- Different nozzle available (coarse, fine)
- Effective range: 1 – 1.5m
- Pressure regulation system
- Tachometer keeping constant walking speed
- All nozzles can be adjusted and controlled individually with check-valve filter
